## VENUE OVERVIEW

---

With the largest beach in New Jersey just steps away, Madison Resort Wildwood Crest is a vacation destination featuring rooms with modern elegance and superb dining options. The resort consists of the Ocean and Royal Towers, with approximately 275 rooms total, right next door to each other.

Wildwood Crest is currently a dry town, with no alcoholic beverages served on property. Ownership is nonetheless committed to giving guests a next-level entertainment experience — taking a page out of Miami's Day Life playbook and in the likeness of a favorite island resort or cruise ship getaway. The goal is to program the right entertainment and events to create an island resort vibe that keeps guests on property. DJs and acts performing here should bring 100% effort and energy at all times to help achieve this.

## PERFORMANCE OVERVIEW - OCEAN TOWER

---

**Tiki Hut:** Main DJ performance area, poolside between the tiki hut and food truck
